Work experience - 10 years 7 months

April 2024 - till now

Japan Tobacco International (Dubai) - D2C eShop Manager

- Business owner of the ploom.ae D2C store launch (project May 2024 - Oct 2025): requirements, Adobe Commerce (Magento) platform, integrations, configuration and content. Launched on the planned date with no delays, together with Accenture, JTI global and local IT and partner developers.

- Found and selected local partners and negotiated contracts for payments (HyperPay), buy-now-pay-later (Tabby) and delivery (Swftbox).

- Designed the order management system (OMS) from scratch with a developer: order flow, screens, reports and functions; ran the translation of the whole store into Arabic.

- Run the store end to end with a lean two-person team: trading, CRM, UX and operations.

- Proposed and launched abandoned-cart recovery via email, SMS and WhatsApp with promo codes, Tabby instalments, order-status emails from the OMS, custom OMS reports by order and SKU, and Google Maps listings for the brand's shop-in-shops; helped configure and test the global Ploom Club loyalty and Refer a Friend programmes.

- Since Feb 2026 also own paid media for the brand (programmatic and Meta).

- Lead AI-visibility (GEO) work: monitoring how the brand appears in ChatGPT, Perplexity and other AI assistants.

February 2022 - March 2024
2 years 1 month
